In the Tribune's poll on the attitude of New Yorkers toward the woman suffrage amendment, the supporters of the measure continue heavily in the majority.

In this morning's figures are included a poll at the Astor Theatre on Saturday night and of two polls yesterday, one in a tenement at Thirtieth Street and Greenwich Avenue, and the other in the Grace Methodist Episcopal Church, 104th Street, near Columbus Avenue, where William Jennings Bryan spoke.

The Tribune is placing these straw ballots in the hands of members of all classes and in all neighborhoods in the effort to make the result of its informal voting as far as possible indicative of the result on November 2.

Very few persons who were asked to indicate their attitude refused to mark the ballots. The general results agree with the preceding polls of the Woolworth Building and the Robert Hoe factory.

The total number of ballots cast in the two days is 2,723. Of these 1,517 are in favor of giving women the vote, 914 are opposed, and 292 express doubt.

Astor Theatre Audience Gives Suffrage Sweep

The theatre-going voter favors woman suffrage. Selecting the Astor Theatre, where "Hit-the-Trail Holiday" is the attraction, The Tribune took a straw vote among the men in the audience. Voters believing women should be enfranchised outnumbered the anti-suffragists by 7 to 4.

When the straw poll was taken the house was filled to capacity, the percentage of men among the audience being about 40, as is usually estimated by Broadway theatrical managers at evening performances. Some refused to mark the ballots distributed in the audience.

The results in the theatre are:

In favor of woman suffrage..... 168
Opposed to woman suffrage..... 96
Indecided..... 10

The total vote numbered 274, which included ballots marked by the cast. Fred Noble, the leading man, who plays the role of Billy Holiday, the \$100-a-week bartender, voted for suffrage. "If I had more time," he said, "I would stamp the city for the cause. As it is, my automobile is at the disposal of suffrage speakers whenever they want to go."

The audience at the Astor Theatre when the vote was taken was not made up entirely of voters in this state. Anticipating that instructions were printed on the blank ballots requesting that the voter mark the paper with the initials of his state. Of those who voted for woman suffrage, 137 were New Yorkers; 22 came from New Jersey; 1 from Pennsylvania; 3 from Massachusetts; 1 from New York; 2 were residents of North Carolina.

A vote of the entire cast, including men and the women, in this instance, stood 11 in favor of, 4 opposed and 1 undecided.

In the second balcony of the theatre the sentiment was identical with that of the more expensive seats in the first balcony and in the orchestra. Sixty-six men voted for suffrage, 25 against it and 6 were undecided. The 2 North Carolinians were among the latter. New Jersey voters numbered 17 up with the gods, 14 of them being in favor of suffrage and only 1 opposed.

The 160 men in the first balcony and orchestra combined polled an affirmative vote of 91, including 6 from New Jersey, 1 from Pennsylvania, 3 from Massachusetts and 3 from Pennsylvania. The 66, 3 being Jersey voters and 1 a Pennsylvanian.

"Positively, no. Let well enough alone," one man in the top balcony "said across the face of his ballot. The place is not at the polls," was another reason an occupant of a balcony chair gave. None of the

Norfolk, Va., Oct. 17.—The Navy Department is determined to pick up the yacht Eclipse, on which it is believed six interned German officers and several sailors escaped from the Norfolk Navy Yard after breaking their parole. The entire coast guard cutter service has been put on the trail of the vessel, and the navy is sending from Hampton Roads to-day, under instructions, is reported, to cruise several hundred miles to sea in the hope of locating the truant boat.

THIRTY PER CENT FOR GOOD LOOKS

Kansas Counts Personal Beauty High in Stenographers.
Topeka, Kan., Oct. 17.—Kansas girls who want stenographic jobs are wondering if they ought to consult beauty doctors before taking the state civil service examinations. The rules of the commission, recently announced, show that 30 per cent of the grade will be given to a girl on her personal appearance and demeanor. The ability to take shorthand notes on a typewriter at a reasonable rate of speed will count 50 per cent. A slight display of grammar, orthography and penmanship count the other 20 per cent.

JOFFRE FASTS 22 HOURS

Goes Without Food or Drink While Directing Battle Moves.

Paris, Oct. 17.—A Paris paper to-day gives an account of how General Joffre, commander in chief of the French forces, directed the operation during the battle in the Champagne region. Taking a post close to the front, in an innkeeper's kitchen, where a telephone had been installed, General Joffre, surrounded by a large staff, listened to officers at the telephone, at intervals giving his orders in an absolutely calm voice.

In this position, the newspaper account says, General Joffre remained longer than twenty-two hours—on 9 o'clock in the morning until 7:30 the next morning—neither eating nor drinking during the whole time. Then, after marking certain places on the map, he put down his pencil and said: "It is over. Let us go take a bite."
